

Exterior Bump Casters

Exterior Bump Casters, when mounted to one of our low profile carts, allow the cart to effortlessly cross obstacles including ramps, curbs, uneven surfaces and more. The Exterior Bump Casters even help with stairs! Compatible with the yel_Low Safety Dolly, MoversMax, and standard on the Move PRO.

Contents:

Qty 4 4" wheels	Qty 4 3/8" Nuts	Qty 8 5/16" Washers
Qty 4 Yellow Caster Brackets	Qty 8 3/8" washers	Qty 8 5/16" Locknut
Qty 4 3/8" x 2.5" Hex Bolts	Qty 8 5/16" x 3/4" Carriage Bolt	

Installation:

1. Determine which side you would like to install the exterior casters. Casters can be installed at the front and rear or the left and right side of the cart body.
2. Insert two 3/4" carriage bolts into the back of the caster bracket and through the mounting location in the cart body. On the inside of the cart body, add a washer and locknut to the carriage bolt. Tighten locknut. Repeat process for the other three caster brackets.
3. To attach the wheel to the caster bracket, slide one 3/8" washer onto a 2.5" hex bolt, insert hex bolt into the side mounting hole of the caster bracket, through the 4" wheel and out the other side of the caster bracket. Add 3/8" washer and nut to the bolt. Tighten. Do not overtighten or wheel will not spin. Repeat process to install the other three wheels.
4. Once installed, the exterior casters will be slightly raised off the ground. The casters are designed to come in contact with uneven terrain such as ramps and curbs.
