

Vertical Panel Saws

3000 SERIES

10.25" Saw on a Spinning Insert

Sealed Steel Roller Bearings

Steel Sleeve Material Rollers

Measuring System

Product Description:

This machine is designed to use a 10.25" saw blades to cut thicker materials or make finer cuts on materials like Melamine. The 3000 Series panel saw has an accessory package we would recommend to door manufacturers or custom woodworking shops that want to take advantage of the variety and benefits of using 10.25" saw blades. This series unit is ideal for breaking down material up to 2 1/2 inches thick with precision cuts.

Available Fullsize Models:

50" Cross Cut Model# 3050
MSRP: \$4299

62" Cross Cut Model# 3062
MSRP: \$4599

74" Cross Cut Model#3074
MSRP: \$4799

The 3000 Series features the exclusive Accu-Glide bearing system along with the factory set patented Accu-Square preventing it from ever going out of square. Steel sleeves are used to cover the material rollers like a knight's armor preventing damage to the material rollers. The dust collection system uses a dust shroud brush that contains the saw dust to allow the larger diameter dust hose to evacuate it. The major difference of this saw and the other panel saws is the larger Milwaukee 10.25" saw and the steel sleeves covering the material rollers.

Standard Equipment:

Accu-Glide sealed bearing system
Accu-Square Alignment System
Quick Change Carriage
Spring Loaded Retraction Mechanism
Powder coated welded steel frame
11 Gauge Steel Guide Tubes
Saw Cord Holder

Package Includes:

Milwaukee 10.25" Saw Blade
Spinning saw insert plate
Dust hood, blade brush
12 ft. dust hose, 2.5" coupler
Folding Stand and Wheels
Steel covered material rollers
Dual Rip Gauge
Stop, Bar, and Measuring Tapes

Optional Accessories:

Full Mid-Fence
Floating Router Plate
Full Builder's Extensions
Laser Pointer

Our patented Accu-Square alignment system assures that your machine will never go out of square and our unique sealed roller bearing system provides for smoother carriage action and tighter tolerances.

If you are looking for an accurate panel saw with unlimited rip cut capability that is ideal for cutting thicker material or the convenience of using your 10" saw blades, the 3000 Series Panel Saw is what you want. Contact us today for more details.
