

3000 SERIES

Product Description:

The 3000 Series panel saw would be recommended for door manufacturers or custom woodworking shops that want to take advantage of using a 10" saw blade.

The saw is designed for cutting thicker material, up to 2 1/2", or making finer cuts on material like Melamine.

Steel sleeves are used to cover the material rollers, like a knight's armor, preventing damage to the rollers themselves. The dust collection system uses a dust brush that contains the sawdust, allowing the larger diameter dust hose to remove it.

The Folding Stand is as easy to open & close as a ladder, yet provides complete stability while in operation. For portability and mobility, Transport Wheels are included.

Available Fullsize Models:

50" Cross Cut Model # 3050

62" Cross Cut Model # 3062

74" Cross Cut Model #3074

10" Saw on a Spinning Insert w/Dust Collection

Sealed Steel Roller Bearings

Steel Sleeve Material Rollers

Measuring System

Standard Equipment :

- Powder Coated Steel Frame
- Nickel Chrome Plated Guide Tubes
- Accu-Glide Sealed Bearing System
- Quick Release Carriage with 2 Locks
- Retraction Mechanism
- Cord Holder
- Center Material Support

Package Includes :

- Makita 10" Saw
- Spinning Saw Insert Plate
- Dust Hood and Hose
- Dust Containment Brush
- Folding Stand
- Steel Sleeved Material Rollers
- Dual Rip Gauges
- Stop Block with Bar
- Two Measuring Tapes
- Transport Wheels

Optional Accessories :

- Full Mid-Fence
- Floating Router Insert Plate
- ACM Rolling Shear Insert Plate
- Laser Guide
- Frame Dust Collection
- Flip Stop System
- Full Builder's Extensions
- Pivoting Knife Insert Plate
- Coiled Extension Cord

Our patented Accu-Square alignment system assures that your machine will never go out of square, and our Accu-Glide sealed roller bearing system provides for smoother carriage action and tighter tolerances.
