

# Motorized Job Site Shuttle Dolly

**Avoid back/shoulder injuries and product damage with our motorized job site delivery dolly!**

The Motorized Job Site Shuttle Dolly is a “final mile” solution for the construction industry. It can handle any job site terrain including mud, gravel and sand. Carry items like drywall, plywood, doors, windows, granite slabs, cement bags, roofing tiles, lumber, blocks, and piping. The unique and adjustable post system allows you to carry a multitude of hard-to-carry items.

*Base Model*

*With optional Rubber Triangle Cleat Posts upgrade*
