

SAW TRAX CARTS

...the only dolly designed with the sign industry in mind.

RACK AND ROLL SAFETY DOLLY

Available Models:

Rack and Roll Safety Dolly
SKU# BSD

Options:

2 additional 56" Posts
SKU# DMP

Corner Bumpers
SKU: CB

The small footprint and huge carrying capacity of the Rack and Roll Safety Dolly is designed as a substrate carrier in the sign industry. Multiple types of sheet and/or rolled substrates can be carried simultaneously.

Made for mostly indoor use and built to perform, this dolly can carry 3 to 4 times the load of dry wall carts, all while being easier, faster, and safer to load. With the eight 56" positionable posts, it is ideal as a rolling rack for sign shops to store material or move product to the printer or cutter.

The all-steel, US made, uni-bodybox has a solid base to carry up to 1000lbs. Based on the same steel platform as our yel-Low Safety Dolly, our Rack & Roll Safety Dolly features 3" locking stem and wheel casters. These casters are mounted to the corners of the dolly giving it more ground clearance than the yel-low safety Dolly. When wanting the low profile of the yel-Low Safety Dolly, but needing the feature of locking casters, the Rack & Roll Safety Dolly is the perfect choice.

EACH WHEEL HAS A FOOT PETAL BREAK
