

Scoop Dolly

DOLLY TRAX **SAW TRAX**

Effortlessly move tall and wide objects in any direction

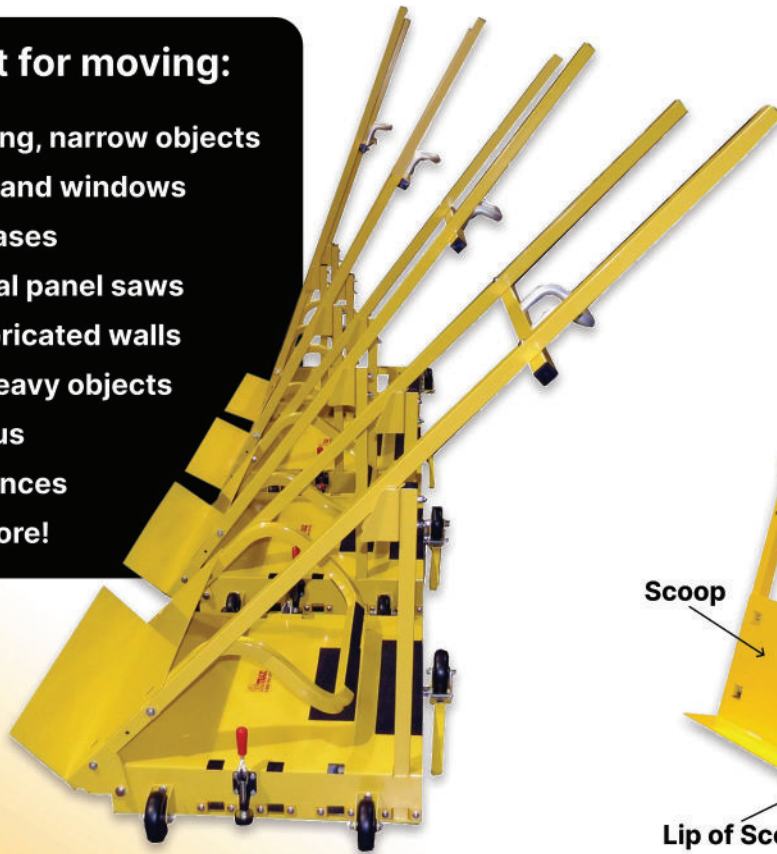

Fast, Easy, Safe and Efficient

Move your heavy, tall, narrow and long products around your warehouse or onto a truck safely with just one person.

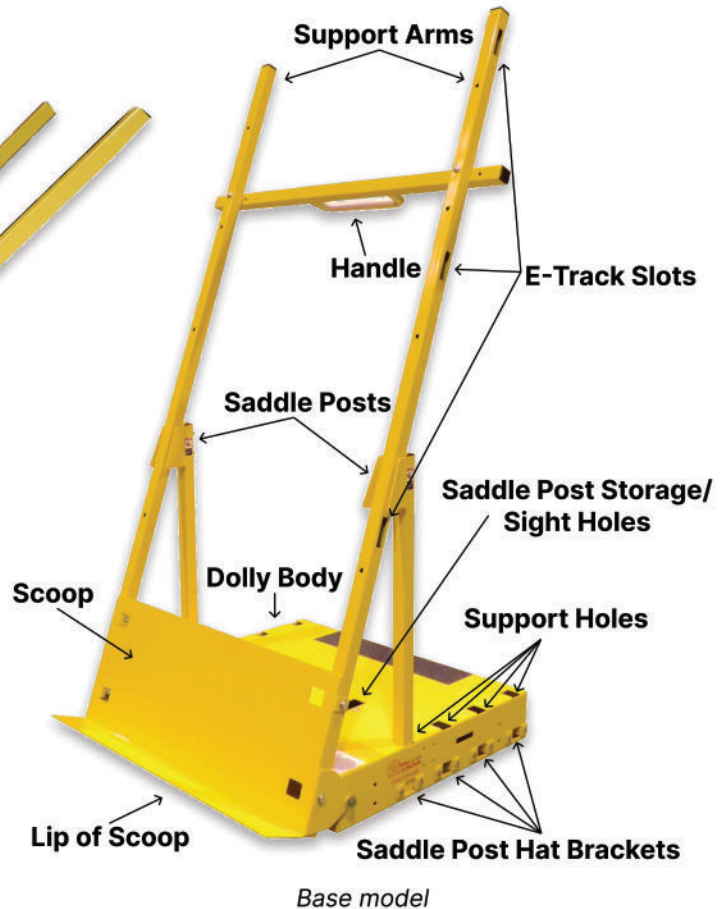

The Scoop Dolly operates like a pivoting hand truck on a dolly. Unlike standard hand trucks, the object can be moved in any direction, making long objects easier to move. The Scoop Dolly can be left alone once loaded and tilted into position. No operator is necessary to support the load.

Great for moving:

- Tall, long, narrow objects
- Doors and windows
- Staircases
- Vertical panel saws
- Prefabricated walls
- Top-heavy objects
- Bureaus
- Appliances
- and more!

Vertical for loading, with multiple tilt angles for transporting objects (shown with optional accessories)

Base model
