

Bucket Puller

Heavy-Duty Reach Tool for Buckets, Containers & Deep-Rack Retrieval

The **Bucket Reacher** is engineered for heavy-duty performance, constructed from 17GA galvanized steel tubing to deliver maximum strength and reliability. Its ergonomic hook design features a precise bend that provides superior leverage and comfort when pulling or lifting, while the powder-coated finish ensures long-lasting durability in tough environments.

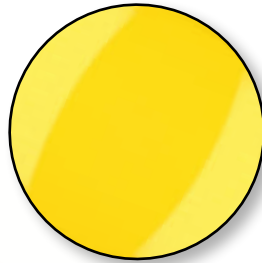

Lift & Pull Control

Optimized Curve for Gripping

Reinforced Steel Core

Built for Maximum Strength

High-Visibility Finish

Safety Yellow Powder Coat

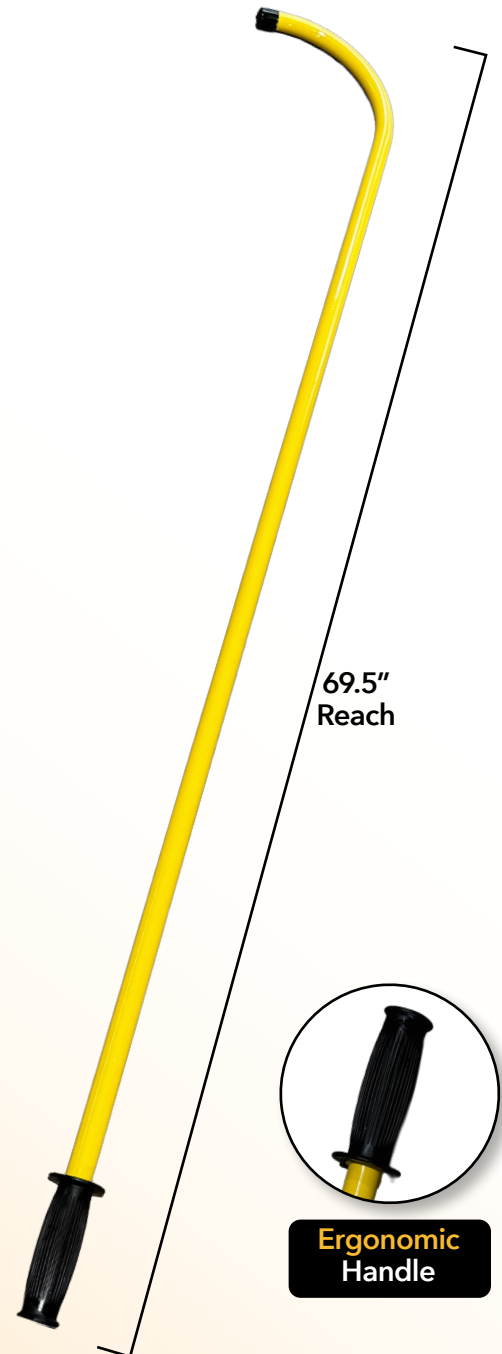

BUILT FOR REAL-WORLD STRENGTH

Smooth edges and a comfort grip handle promote safe handling, preventing damage to buckets and protecting hands during use.

Designed as a time-saving tool, the Bucket Puller reduces effort and increases efficiency when moving heavy or awkward containers. Finished in high-visibility safety yellow, it's easy to spot in busy workspaces: improving safety, workflow, and overall productivity.

- ▶ **MATERIAL:** 17GA Galvanized Steel Tubing
