

HC Reacher

Ergonomic Deep-Pallet Retrieval Tool for Concrete, Mortar, Feed & Landscape Bags

The **HC Reacher Tool** is engineered for the exact challenges found in building-materials operations: heavy bags positioned deep on pallets, abrasive surfaces that damage packaging, and retrieval tasks that force workers into unsafe posture. Its long reach, reinforced head, and curved anvil work together to bring the load forward smoothly and intact reducing strain, preventing product damage, and improving workflow efficiency.

Capacity

REDUCE STRAIN + INJURY

Maintains upright posture and neutral spine positioning during product retrieval.

PREVENT BAG DAMAGE

Curved top anvil slides smoothly against product without tearing bags or poly.

- ▶ **HANDLE LENGTH:** 60"
- ▶ **HEAD MATERIAL:** Heavy-Duty Steel
- ▶ **PULL CAPACITY:** 160+ lbs
- ▶ **HEAD TYPE:** Fiberglass-Reinforced ABS
- ▶ **HEAD CONNECTION:** Factory-Bonded
- ▶ **PRIMARY USE:** Pulling Heavy Bags + Deep Stock
- ▶ **INDUSTRIES:** Home Centers, Warehouses, etc.
