

Motorized Job Site Shuttle Dolly

Avoid injuries and product damage with our Motorized Job Site Delivery Dolly!

The **Motorized Job Site Shuttle Dolly** is a “final mile” solution for the construction industry. It can handle any job site terrain including mud, gravel and sand. Carry items like drywall, plywood, doors, windows, granite slabs, cement bags, roofing tiles, lumber, blocks, and piping. The unique and adjustable post system allows you to carry a multitude of hard-to-carry items.
