

Pocket Reacher

The **Pocket Reacher** keeps crews moving by giving fast, controlled reach into high shelves, conveyors, and tight storage zones. It's a compact, cost-effective alternative to bulky reach poles. It is ideal for pulling boxes forward, clearing light jams, and speeding daily recovery tasks. Built for retail, warehouse, and delivery teams and workflows that demand efficiency daily.

Reacher & Reacher HD

The **Reacher Pole Ends** help your business stay efficient. They can be used to easily reach objects such as boxes on shelving or to clear a conveyor belt jam, and more. Compared to other industry standard reach poles, the Reacher pole ends are a cost-effective alternative. More information available upon request.

The Reacher HD can pull up to 200lbs
